2. immunoinformatics
3. atlas of tropical medicine & parasitology
4. virology
5. infectious diseases
6. malaria
7. microbial biotechnology
8. clinical chemistry & molecular ...
9. electronic atlas of parasitology
10. advances in parasitology
11. colour atlas of virology
12. molecular microbiology laboratory
13. clinical applications of pcr
14. koneman's color atlas of diagnostic microbiology
15. basic science
16. molecular diagnostics ...
17. bioinformatics ...
18. gene cloning & manipulation
19. gene therapy for cancer
20. clinical haematology
21. urology
22. practical handbook of microbiology
23. clinical andrology atlas of human sperm morphology ...
24. textbook of assisted reproductive techniques
25. current protocols in molecular biology
26. current protocols in bioinformatics
27. current protocols in immunology
28. current protocols in protein science
29. gene VIII
30. topley & wilson
31. gene cloning & DNA analysis
32. cell culture basics
33. laboratory procedures in biotechnology
34. environmental microbiology
35. fields virology
36. medical microbiology
37. IVF in the medically complicated patient
38. dictionary of microbiology & molecular biology
39. molecular cell biology
40. immunology abul abbas
41. essential medical genetics
